

GUIDANCE SERVICE

As Şehit Yüzbaşı Yusuf Kenan Vocational and Technical Anatolian High School Guidance and Psychological Counselling Service, our aim is to help our students solve the difficulties they encounter during their development process before they become problems and to contribute to their growth as individuals who are aware of themselves, have adaptation and communication skills, are sensitive to their environment, happy, healthy, and creative.

And we know that! We are a big family that shares joys, sorrows, emotions, thoughts, dreams, time, in short, life. As Şehit Yüzbaşı Yusuf Kenan Vocational and Technical Anatolian High School family, we have a common goal that brings us together: Our children being successful. On the road to success, as a school, we work to ensure the success of our students throughout the year with learning activities related to different courses, exams and student success evaluations, guidance lessons, social and sports activities to increase students' motivation, university trips, career introduction seminars, one-on-one student counseling and group counseling.

OUR PRINCIPLES

- Confidentiality
- Continuity
- Trust
- Collaboration
- Volunteering
- The value and autonomy of the individual

OUR GOAL

In line with these principles, our service aims to provide the best service in the education of students and in guiding parents and teachers, taking into account the latest developments in the field, in line with the needs of the developing and changing society; and to ensure that each student successfully completes the developmental tasks related to their age period and prepares for the next developmental period within an educational community where responsibility, cooperation and mutual respect are emphasized.

OUR WORK

- To hold cooperation meetings with all teachers and administrators.
- To ensure continuous flow of information with classroom teachers and advisor teachers.
- To conduct orientation (introduction and adaptation) studies for students and teachers who have just started school.
- To ensure the implementation and evaluation of techniques aimed at getting to know the student.
- To conduct individual or group counseling with students.
- To follow up on the student in cooperation with the family.
- To conduct Vocational Guidance studies to help students identify their own characteristics (interests, talents, personal characteristics) and professions.
- To organize seminars for students to develop efficient studying, communication skills, exam anxiety and social skills.
- To provide in-service training for teachers.
- To monitor student success-failure and carry out studies for students (group and individual counselling) and parents accordingly.
- To organize seminars, conferences and briefing meetings in line with the needs of parents and students.
